ITEM CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California, riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on their riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available, including the following:

STATEMENT OF WATER DIVERSION AND USE

S 2062

This statement should be typewritten or legibly written in ink.

A. Name of person diverting water Tom A Johnston
Address 3101 Silverado Trail N. St Helena Cal 94574

B. Name of body of water at point of diversion Napa River
Tributary to _____

C. Place of diversion Napa $\frac{1}{4}$ Section 24, Township 8N, Range 6W, Block
County or locate it on sketch of section grid on reverse side with regard to section lines or prominent local landmarks.

D. Name of works Skid mounted Myers Ford Pool Ponds

E. Capacity of diversion works 150 gals per min cubic feet per second
gallons per minute
gallons
acre-feet
Capacity of storage reservoir _____
State quantity of water used each month in gallons 300,000

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as: acres of each crop irrigated, average number of persons served, number of stock watered, etc.

Maximum annual water use in recent years 4 gallons
acre-feet

Minimum annual water use in recent years _____ gallons
acre-feet

Type of diversion facility: _____, pump ✓

Method of measurement: _____, _____, _____, _____, _____, _____

F. Purpose of use (what water is being used for) Irrigate Vineyards & Peaches

G. General description or location of place of use (use sketch of section grid on reverse side if you desire) 1 Block
N. Side Lane on Silverado Tr. Bordered by Bell Cr. on N.
Napa River on W. Sub Jr E.

H. Year of first use as nearly as known 1935

I. Name of person filing statement Tom A Johnston
Position Owner Organization _____
Address 3101 Silverado Tr N. St Helena Cal 94574

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.

Date signed 6/29/67 Signature Tom A Johnston
